

Ad Majorem Dei Gloriam Et Dei Genetricis Honorem.

2017 Provincial Chapter Commitment Statement

Walking in the steps of Fourviere our 2017 Provincial Chapter calls and moves us forward in hope to:

- renew with courage and imagination our personal and communal commitment.
- be accountable to one another as an expression of our common life.
- be grateful for the enthusiasm of our young, and the wise and empowering presence of our senior confreres.
- affirm and strengthen our identity as Marists and look outward.
- invite back our confreres on the margins of the Society.
- be positive about the reconfiguration taking place within the province.
- care for our planet earth by practicing and promoting conservation, mindful consumption and by working towards a sustainable way of living.

Our revised legislation and recommendations provide us with the necessary tools and guidelines to help us achieve this and our chapter encourages each one of us in the province to familiarize ourselves with the new legislation and to put it into practice at all levels.

We sense a new Pentecost, and this is the song we should sing together.

Rejoicing in our Marist charism which inspires us we recommit ourselves to deepen and celebrate our faith to enliven the ideals of the Gospel in the way of Mary, our First and Perpetual Superior.
